

2019 Bass Pro Shops Bassmaster Open Linking FAQs

- Linking is only available during the initial registration period (9:00 am central standard time October 30, 2018 to – 8:59 am central standard time November 06, 2018).
- Note: ***The linking page becomes available after your payment is processed; do not close page until you have entered your links information.***
- Linking is not a guarantee of entry into a tournament. Tournaments may fill up during the linking registration period so it is best to sign up and link as soon as you can. Timestamps are assigned at the time you register and determine the anglers accepted into the tournament.
- Linking is a onetime opportunity; if a co-angler does not register and complete the link then the pro **cannot** request a new link and their timestamp will be changed to their current membership status registration period.
- Linking will only be available to pro anglers registering for a full Bass Pro Shops Bassmaster Open division.
- Pros may request to link with a different co-angler for each tournament within the division. All names must be submitted at the time you register.
- Pros are **required** to have the co-angler's name, email address and B.A.S.S. member number to request a link.
- Co-Anglers will have **48 hours** after a pro has submitted their name to register for a tournament and complete the link.
- It is strongly recommended that pro anglers follow up with the co-angler(s) link to make sure they followed through with their registration within the **48-hour** time limit.
- During the linking for Life and B.A.S.S. Nation members, only the pro must be a Life or B.A.S.S. Nation member. The co-angler can be a standard B.A.S.S. member.
- All pro and co-anglers, linking and non-linking must be a current member of B.A.S.S. If you are unsure of your membership status, please call 1-877-B.A.S.S.-USA (1-877-227-7872).
